IRONONE TECHNOLOGIES

Lakmini Wijesundera  
CEO

An organically grown IT solutions company, IronOne Technologies counts local blue-chip and global Fortune 500 companies as its clients. It employs a multinational staff, in four global offices. Despite a growing international presence, its global technology and innovation centre remains rooted in Sri Lanka.

**Q:** What does it mean to you and your team, to be placed among Sri Lanka's Most Respected entities?

**A:** As a leading software solutions company, we prefer to let our work do the talking. However, we're proud to be one of the youngest brands to be ranked among the Most Respected, by LMD.

IronOne commenced operations out of a garage, 10 years ago. Today, we're expanding aggressively around the globe, led by our motto: 'Think. Innovate. Lead.' Our vision is to stand tall in the global space, as a home-grown Sri Lankan company competing against leading global companies. In fact, we are already doing this.

**Q:** What are the qualities and values that have brought your company success? How can you ensure that your employees are committed to them?

**A:** We deliver on our promise, and strive to exceed customer expectations. Our willingness to go the extra mile, coupled with service quality and excellence, has brought us global acclaim. Despite being a relatively young company, we have carved out a niche for ourselves, by providing sustainable IT solutions.

Our determination to challenge ourselves resulted in the design of our product BoardPAC, which takes the eco-friendly concept to the next level. Despite our swift success, we remain disciplined and work hard to strengthen our legacy. IronOne provides a dynamic work culture, with unmatched learning opportunities for our employees.

The firm's operations have expanded overseas, and we run offices in the US, Malaysia and Singapore, coupled with partner offices in 20 countries. Our employees have the opportunity to manage products that are bought by Fortune 500 companies.

In addition, the company's processes are designed so that all employees are engaged and valued – and work with passion, together as a team. Our attrition rate has hovered at almost zero for several years, which is testimony to how fulfilled our staff feel.
